

HOW TO REDUCE CROSS-CONTAMINATION?

- 01** Focus on regular cleaning of 'high-touch' areas
- 02** Ensure even minimally touched surfaces are cleaned at a reasonable frequency
- 03** Dispose of waste correctly and hygienically
- 04** Follow contact time of disinfectants on surfaces.
- 05** Colour code cleaning cloths and disposable wipes
- 06** Keep a bottle of travel-sized hand sanitiser on desks/in bags
- 07** Clean and disinfect equipment after use
- 08** Continually train in effective cleaning techniques and systems
- 09** Travel in own vehicles for distancing purposes
- 10** Daily washing of uniforms

CLEANING PRODUCTS FOR ROUTINE CLEANING

For routine environmental cleaning:

Hard/Non-porous surfaces

Bleach Based Solution (Hypochlorite & Sodium Hydroxide)

Floors and some porous surfaces

Fragranced Sanitisers (Quaternary Ammonium Compound & Non-Ionic Surfactant)

High touch areas

Bleach based and/or Benzalkonium Chloride, as requested

PPE MEASURES FOR ROUTINE CLEANING:

Closed in, non-slip shoes

Impermeable, disposable gloves

HIGH RISK ENVIRONMENTS:

Hazmat Suit

Surgical masks

Eye protection

PREVENTION

Avoid contact with sick people

Wash hands thoroughly and often for at least 20 seconds.

Cover coughs and sneezes.

Observe rules for social distancing.

Stay home if sick

RECOMMENDATIONS

Simple solutions to protect your team and reduce the spread of infectious disease in the workplace

Provide hand sanitiser, disposable disinfectant wipes and wash stations for your team

Review the regularity of your cleaning, disinfection frequency is critical, consider how many team members you have visiting bathrooms and kitchens each day

Train your team in disinfecting high touch areas in-between cleans

Update your infection control procedure for all team members to sign off

Add cleaning and infection control as an agenda item to discuss in morning toolbox/take 5 meetings

DECONTAMINATION SOLUTION

Please notify our client care team immediately on 07 4998 5250 if you or anyone from your workforce tests positive for Covid-19, or is suspected to have been in contact with a positive person/s. We will work with you to initiate decontamination services to ensure your team are protected and your business can get back up and running as quickly as possible.
